

Thamer Ayeed Alonazi

I am a team leader in the field of power generation stations, with +10 of experience in operations management and team leadership. Capable of efficiently operating power stations, I have achieved sustainable production and ensured safety. I successfully led a diverse team of operators and fostered a work environment that encourages excellence and innovation. I conducted data analysis and made strategic decisions to enhance performance and reduce costs. I excelled in communicating with external parties and strengthened collaboration with partners and suppliers.
